No Minor Sale**

No Minor Sale is a campaign funded by the NM Health Department to prevent sales of tobacco products to minors (under age 18). In NM, there is typically easy access to tobacco products for minors. The campaign notes that 90% of tobacco users begin using as minors. There is a need for more/better education for communities and tobacco retailers, a licensing program for tobacco retailers (NM is one of only 13 states that doesn't do this), and better enforcement of no sales to minors.
